

## ASSEMBLY INSTRUCTIONS DOUBLE & TRIPLE ROLL STANDS

**STEP 1** - Apply an oval-shaped bead of glue (Elmer's or other white glue) to the bottom of one doweled bracket.

**STEP 2** - Insert screws through holes in bottom of base plate (with screw heads in countersinks). Line up holes in bottom of doweled bracket with screws and tighten screws securely into doweled bracket with Phillips head screw driver.

**STEP 3** - Repeat steps (1) and (2) for mounting other doweled bracket onto opposite end of base plate.

**STEP 4** - Remove the four self-adhesive foot pads (furnished) from liner and apply to each corner on the bottom of the base plate.

Place white plastic tube mandrel(s) over support dowels and roll stand is ready for use.

**NOTE:** The bottom of the base plate is the side that has countersunk screw holes.
